RE: Harley Dome Minerals Mine
ACT/019/012
Grand County, Utah

Dear Mr. Kobayashi:

Thank you for your letter of July 29, 1983, advising the Division of the status of the development of the Harley Dome Minerals Mine.

Keeping the Division informed of Westwater's activities on a more regular basis would be appreciated. This should involve, at a minimum, quarterly updates. The Division should also be informed of final plans for surety submittal at least 60 days prior to the anticipated start of any mine-related construction in order to avoid any delays in receiving final approval. The Board of Oil, Gas, and Mining, which meets monthly, must approve the form and amount of surety. The required surety must be in place prior to issuance of final approval and any mine-related development.

Please feel free to contact me if you have any further concerns.

Sincerely,

JAMES W. SMITH, JR.
COORDINATOR OF
MINED LAND DEVELOPMENT
